REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or reasonably teach a system and method for repairing a cardiac valve comprising a flexible guide shaft and a flexible inner shaft supporting at its distal end a remotely controlled tool; and a retainer at the area of the cardiac valve, the retainer being attached to an annulus of the cardiac valve, and being closable via the tool to draw the annulus into a smaller diameter and a delivery member for supporting an array of supporting pieces at a distal end thereof and extending through the flexible guide member, the array of securing pieces being inter-coupled by a cable. Thus, the examiner has allowed claims 1-102.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
